

# IMPORTANT INFORMATION COVID-19

**All students** that have presented with COVID-19 symptoms **must be asked to leave College premises** until we have confirmation if the student has COVID-19.

These symptoms may be:

- A high temperature.
- A new, continuous cough.
- A loss or change to your sense of smell or taste.

Once the student has got home they must arrange for a test to determine if they have COVID-19. The student must confirm either way if they have COVID-19. They will need to show evidence of a text message from the NHS with their details on it. This can be sent via email if they take a screen shot.

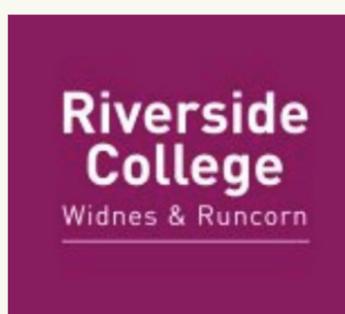

## Seek medical advice if:

- You develop worsening symptoms.
- You have been in close contact with a person known to have COVID-19.
- You live in or have recently been in an area with ongoing spread of COVID-19.

# What do I do if?...

**I have/ my son/daughter has Coronavirus symptoms:**

- Do not come to college.
- Keep in regular contact with college and provide an update (College to keep record)
- Self-isolate.
- Get a test straight away.
- Inform college immediately about test results.

## **If the test comes back negative.**

If you or your son/daughter still feels unwell after a negative test, then they may still need to remain off college as they previously would have. Especially if they show signs of a fever.
